EDUCATION

Eastern Michigan University | GPA 3.56

Bachelor of Science: Computer Science

Ypsilanti, MI

May 2027

Awards: Eastern-Tuition-Advantage Scholarship (full-ride academic scholarship), Dean's List

Relevant Coursework: Data Structures & Algorithms, Game Development, Intro to Web Programming

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C#

Frameworks/Libraries: React.js, Node.js, Vite

Tools/Technologies: AWS, GitHub/Git, Plastic, Unity

Databases: SQLite3, Microsoft Access

PROFESSIONAL EXPERIENCE

Rasta | Software Engineer Intern | Ypsilanti, MI

Feb 2026-May 2026

- Developed a responsive and accessible e-commerce platform using HTML, CSS, JavaScript, and WordPress to ensure cross-browser compatibility and an optimal user experience.
- Executed comprehensive application testing and performance optimization, achieving a ~3 second emergency response call time for law enforcement.

EMU | Teaching Assistant | Ypsilanti MI

Dec 2025-Present

- Mentored 30+ undergraduate students in Introduction to Web Programming, delivering hands-on instruction and debugging support in JavaScript, HTML, CSS, and PHP.
- Evaluated and graded Computer Organization exams for 20+ students, providing targeted, constructive feedback to improve academic performance.

EMU | *Lead Engineering Camp Instructor* | Ypsilanti, MI

Jan 2026-Present

- Directed engineering and cybersecurity instruction for 100+ K-12 students, fostering foundation STEM skills and providing tailored educational resources.
- Collaborated in monthly curriculum planning meetings to design, develop, and implement core camp modules and hands-on activities.

PROJECTS

It Lives in the Woods (Video Game) | C#, Unity, GitHub, Plastic

- Led a 3-person cross-functional team in developing a Unity-based video game, authoring over 1,000 lines of object-oriented C# scripts.
- Managed version control using GitHub and Plastic SCM, ensuring seamless collaboration, code integration, and repository maintenance.
- Facilitated iterative development through agile sprints, incorporating user feedback from playtesting to implement new features and refine gameplay mechanics.

Todo-List App | JavaScript, CSS, HTML

- Developed a mobile-friendly Progressive Web App (PWA) for task management using JavaScript, HTML, and CSS to enhance user productivity and time management.
- Optimized application performance and DOM manipulation to achieve sub-second task rendering and dynamic UI updates for seamless task addition and removal.

Weather App | JavaScript, Python, HTML, CSS, JSON, API

- Built a dynamic weather application utilizing Python, JavaScript, HTML, and CSS to deliver real-time, location-based meteorological data to users.
- Integrated the OpenWeatherAPI to fetch and parse JSON data, using JavaScript to dynamically update the UI and background visuals based on current weather conditions.
- Leveraged Python's built-in OS library to optimize backend processing, achieving application load and response times of under 1 second.

LEADERSHIP & PROFESSIONAL DEVELOPMENT

EMU | Orientation Group Leader

Jan 2025-Present

- Directed orientation programs and led groups of 200+ incoming university freshman, facilitating a smooth transition to campus life.
- Guided students through complex course registration processes and delivered comprehensive campus onboarding.
